

TDT4136 - Assignment 2

Marius Lindegaard

2020-09-14

Running the code

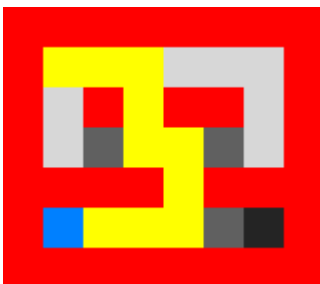

The code can be run by running the main.py file. This will run all the tasks and show them to the user.

Some minor changes have been made to map.py. None of them change the functionality of the module.

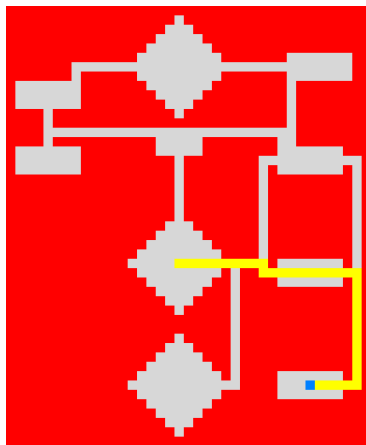

About Task 0

A "Task 0" has been added, as the tasks given do not check for prioritizing shorter paths. The nodes hidden by the yellow path all have cost 1.

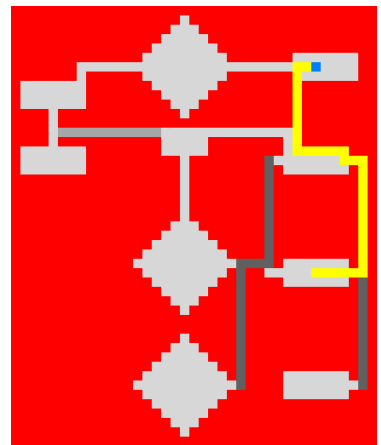

Task 0 solution

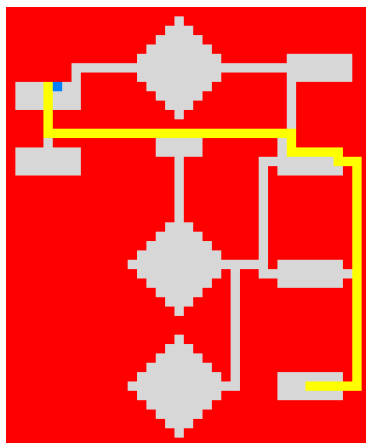

Task 1 solution

Task 3 solution

Task 2 solution

Task 4 solution
